

e-notification

This service allows the user to subscribe for e-mail notifications about the Official Announcements (**service is available until 03.04.2015**).

For this, the user fills in an order form, stating the type of notices, the period during which the notices are to be sent, and the relevant keywords. The notice is sent to the user once per 24 hours.

You can also order a quick notification service where an e-mail notice is sent immediately after publishing an official announcement. The service must be paid for via online banking at the time of ordering the service.
