

Other services

The Centre of Registers and Information Systems (RIK) administrates and develops several registries and information systems that are very important for the state and its citizens.

In addition to the e-Business Register, the e-Land Register, the Criminal Records Database and other well-known registries, the RIK also administrates the e-Notary system, the Marital Property Registry, the information system of the Ship Register, the information system of courts, the Probation Supervision Register etc.

See more information about other services in the menu at the left side.
