

Document Register

The public view of the Document Register kept by the Centre of Registers and Information Systems (RIK) allows viewing the content of those electronic documents registered in the RIK since 01.01.2009 which have no access restrictions in force.

Only metadata is published about earlier documents and documents with access restrictions in force. The Document Register does not publish information which is intended for agency's internal use only, as determined by section 35 of the Public Information Act and/or an order of the Director.
