

## E-Arrest

The electronic system of information inquiries and arrest mediation (e-Arrest) is an information channel between the state, credit and payment institutions, which belongs to the Republic of Estonia and serves as the service provided by the Centre of Registers and Information Systems.

[The general terms and conditions](#) [1] of the electronic arrest system service (entered into force on 27 April 2018) establish the terms and procedure for the use of the system.

In order to use the e-Arrest service, a digitally signed application must be submitted to the Centre of Registers and Information Systems (RIK), indicating the objective of subscription and the legal basis for the use of the data. Use of the service is free of charge for all parties.

If you have any questions about the e-Arrest, please send an email to [earest@rik.ee](mailto:earest@rik.ee) [2]
