

## Answer the e-business register feedback questionnaire and you could win a prize

[1]

**The team of the Center of Registers and Information Systems (RIK) wants to make the view of the company's data, which summarizes the necessary background information and data on the legal entity, more user-friendly in the e-business register. In order to improve user-friendliness and make further developments, RIK conducts a survey to map the needs of users and today's information consumption needs, everyone can give feedback by answering about ten questions.**

It will take 5-7 minutes to answer the [questionnaire](#) [2], you can answer it until June 10, and it is possible to take part in a prize draw, during which three smart fast chargers will be drawn on June 10.

[The view of company data](#) [3] includes, for example: register data, means of communication, tax information, fields of activity, reports, procedural information and can be seen by anyone who views the data of a legal entity in the e-business register.

The RIK team will be grateful if you can take a moment to give feedback!
